“Grammar”

Dear Parents,

This is to inform you that from 21st to 28th October 2018 we have decided to observe “Grammar Week” (for classes 4 to 9) to stress on the importance of grammar in our spoken and written English. We all agree that grammar cannot be taught in isolation instead it should be ongoing process throughout. However, this is one small effort from our side to bring special focus on grammar. During this duration, teachers will focus on the grammar topics which are already taught but not well mastered by the students. The rules of the grammar will be explained once again. There will be many worksheets given to the students during this period to solve at home other than the ones solved by the teachers in the classrooms.

We request the parents to monitor their homework and ensure that the students are completing the worksheets given to them. The students need not worry about the correctness of the answers because the correct answers will be given by the teachers next day in the class. What is important is that the students should start thinking, attempt the worksheets until the end and make the best use of these days meant exclusively for grammar. Only when both the students and teachers work together very sincerely there will be improvement in academics.

In addition to this, in the month of January, during the activity period we will be conducting only those activities which will promote the speaking and writing skills in languages. Schedule is given below. Accordingly ask your wards to get ready for the competition. Well in advance, the notice has been given so that the students get enough time to get ready. The topics for the competitions will be given by the teachers on before 31-10-18.

Thursday Activity Schedule- January 2019

Date	Activity Class 4	Activity Class 5	Activity Class 6 & 7	Activity Class 8
03/01/2019	Arabic- Handwriting	Hindi- Poem Recitation French- Singing (Solo)	English -Elocution	English -Debate
